

How to enable your add-on in 5 clicks

“One of the opportunities that comes with moving to the cloud is that it’s much easier now to integrate one software with another.”

Paul Hemmings,
Head of Product,
Total Synergy

Synergy add-ons streamline and centralise your business

Connecting leading applications to Synergy has huge benefits including saving time by eliminating double entry, streamlining your management processes, and getting a clearer, broader, real-time view of what’s really happening in your business and projects.

For more information or support, contact your customer success manager - we appreciate all your feedback.
